

2 NEW Products from Aspen Industries

Master Flame Tunnel Model Fire Pit Safety Screen

Fire Grate Campfire/Pit Model

Aspen Industries introduces an economical "tunnel" design fire pit screen to its Master Flame product line. Just turn the tunnel perpendicular to the wind and it keeps hazardous embers and sparks under control while allowing simple fire management.

And the new campfire / firepit style fire grate is the ideal log or wood rack for the outdoor fire.

The Master Flame Fire Pit Safety Screens are also available in Round-Hi and Dome Models.
